

## Seminar RSPO standard update training

RSPO regularly revises its Supply Chain Certification standard. The recently published RSPO standard raises several questions related to your RSPO Supply Chain Certification.

BM Certification offers a professional training that will answer the following questions, among the others:

- What has changed?
- How does this affect your company?
- How should the new or updated requirements be understood?
- How should the fulfilment of the requirements be documented?
- What are the requirements for the responsible personnel, WHO is required to do WHAT?

We offer clear and understandable answers to these and many other questions. Within the framework of seminars, with a maximum group size of 8-15 persons, we deliver the following program:
