Overall risk conclusion:

Negligible Risk

Based on the independent evaluation and verification BM Certification herewith confirm that the organisation has demonstrated the effective implementation of Due Diligence System in accordance with the requirements stated in The Timber and Timber Products Placing on the Market Regulations (UKTR) and UK FLEGT Regulations within the indicated reporting period.

The organisation:

- gathered information on timber, including its species, quantity, supplier, country of harvest and compliance with applicable legislation
- assessed the risk of timber being illegal, applying set criteria in the regulations
- mitigated any identified risk to negligible, by obtaining additional information or taking further steps to verify legality

This statement provides reasonable assurance that the organisation's timber supply chains are regulated to ensure harvesting practices are legal, encourage sustainable harvesting practices and support global forest governance.

More details are available in SIA Wood AB Risk Assessment Report 2021 on request.
