

ISCC EU and PLUS Standard basic training and updates

BM Certification offers a professional training that will answer the following questions, among the others:

- What are basic things to be prepared for audit?
- How to make registration in ISCC webpage?
- How to do internal audits?
- How should the fulfilment of the requirements be documented?
- What are the requirements for the responsible personnel, WHO is required to do WHAT?
- How newest updates influence Your company?
- Is GHG calculation required for Your company or not?

We offer clear and understandable answers to these and many other questions. Within the framework of seminars, with a maximum group size of 15 persons, we deliver the following program:

Day and time	Themes
27.09.2023. 10:00 - 15:30	<ul style="list-style-type: none">• Presentation of the standard requirements according to different scopes, emphasising and highlighting the changes• In-depth explanations about the training, internal audits, and management review required by standard• Responsibilities of internal auditors, group managers and site managers• Certification cycle including deadlines, auditing, and transition phase• Shared responsibility in the supply chain standard (dreams of the future),• Further topics (if required and requested by the participants)• Mass balancing approach• GHG calculations and RED II content

After successful participation you will be suitably prepared to implement, improve and maintain the system in your company. As proof of this, you will receive a BM Certification Training certificate from us confirming your ISCC Qualified Person / ISCC Representative status.
