

# Training on the Rainforest Alliance Standard 1.5

Focused training on the latest Rainforest Alliance Standard updates (v1.5), covering the new auditing & certification cycle rules and migration to the new MyRA platform.

## The training will also cover:

- Use of the MyRA Portal
- Registration and certification cycle (including revised audit frequency)
- Verification levels: What they mean and how to request them?
- Where to find essential information
- How to interpret specific Standard requirements
- Self-assessment and requirement list: What needs to be provided?
- Proof of Standard compliance: what is expected
- Audit process overview
- Responsibilities of representatives, multi-site managers, and site managers
- Core activities in MultiTrace & Marketplace
- Additional topics, e.g., the EUDR module (if required and upon participants' request)

As your certification partner, we provide clear answers — compact and practice-oriented, in **trainings with a maximum of 20 participants**.

After the training, you will be equipped to effectively implement, further develop, and maintain the system within your company. As proof of participation, you will receive a training certificate.

## Venue

The training will take place online via MS-Teams.

## Date

17.02.2027

## Language

English

## Duration
